

Off-Grid Solution - Weather Monitoring Systems

Completed project

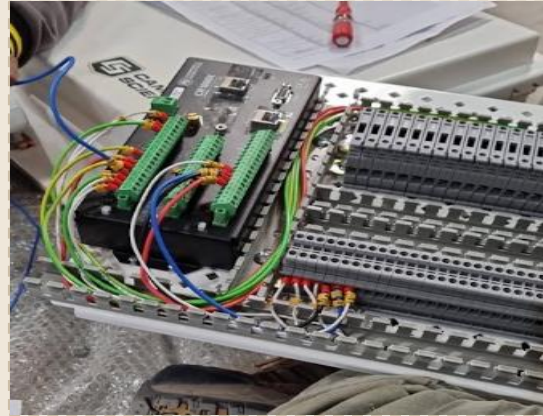

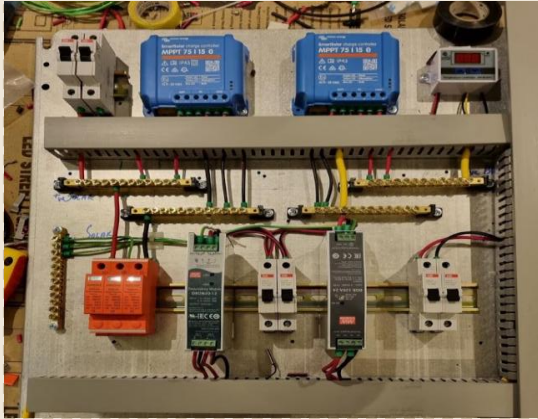

PROJECT DESCRIPTION

Implemented a stand-alone solar energy solution for weather monitoring systems, providing dependable power to remote sensing, data acquisition, communication, and monitoring equipment.

KEY FACTS

Capacity	2.0 MWp
Location	Saudi Arabia
Scope	Turnkey EPC
Status	Completed

Off-Grid Solution - Weather Monitoring Systems Images & delivery notes

DELIVERY NOTES

Successfully delivered a reliable off-grid power system incorporating solar PV, battery storage, charge control, and power distribution, enabling continuous operation in remote locations.
