

Off-Grid Solar Container for EV Vehicles

Completed project

PROJECT DESCRIPTION

Designed and delivered an off-grid solar container solution supporting electric vehicle (EV) applications, integrating renewable energy generation and energy storage to provide an independent power source for EV charging infrastructure.

KEY FACTS

Capacity	2.0 MWp
Location	Saudi Arabia
Scope	Turnkey EPC
Status	Completed

Off-Grid Solar Container for EV Vehicles

Images & delivery notes

DELIVERY NOTES

Delivered a complete and scalable solar-powered energy system, providing clean, independent power for EV applications while reducing reliance on conventional grid infrastructure.
